

Mars Petcare is a great partner in our community. As a shelter, we are thankful to have them in our corner. Not only does Mars provide all the food for cats and dogs in our care, they volunteer to help with projects large and small at the shelter. Associates will spend volunteer time washing dogs, pulling weeds, mulching flowerbeds, painting, and just about every other imaginable task around the shelter. In addition, associates attend events and help staff booths at festivals, etc. We could not do what we do without Mars Petcare. They are a great asset to our community.
